

Metalna Industrija

The metal industry is one of the most perspective branches in Maglaj. Our tradition and experienced workforce create the foundation for successful investments and continuous growth of businesses. Moreover, the development of this branch highly contributes to the reduction of unemployment and provides young people with additional opportunities and safe work places.

Successful Stories

- Inox Trade d.o.o. Maglaj was founded in 2007, good relations and high quality products combined with low prices are what ensured their growth and customer satisfaction.
- The company Baertschi FOBRO is a Swiss investment, which produces agricultural machinery and equipment. The entire production has been moved from Switzerland and Germany to Maglaj.

- **Wide range of metal products**
- **First tractor produced in BiH**
- **Export oriented 90%-100% towards the EU**

Skilled Workforce

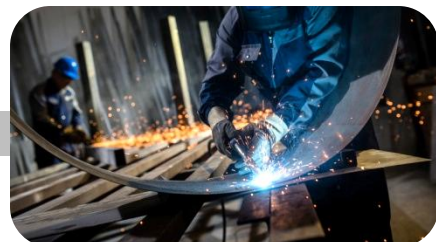

Investors can rely on a skilled workforce – ca. 400 workers (electrical engineers, locksmiths, technicians and others). Education for labour in the metal industry is done through the local High school, which ensures a continuous supply of skilled workers. Practical education is done within the schools workshop that is equipped with all of the necessary machinery and in the factories of companies within the metal industry.
